 Title FINAL DRAINAGE DESIGN REPORT FOR TUBA CITY NORTHEAST
 SUBDIVISION PHASE II IMPROVEMENTS
 Subtitle Morrison-Maierle/CSSA has entered into a contract with
 the Office of Navajo and Hopi Indian Relocation (ONHIR) to
 design Phase II of the Tuba City Northeast Subdivision.
 As part of the design consideration, MM/CSSA is preparing
 this Drainage Report to evaluate storm water runoff
 upstream, through, and downstream of the Phase II development.
 This report and study has been prepared in two parts as
 follows:
 to Initial Report (1) Obtain available public information
 (2) identify floodplains, watersheds, and probable impacts.
 solutions. (Assess drainage problems and identify possible
 channel 3) Determine initial discharge values, tentative
 sizing and alignment. (4) Present the results of this
 drainage analysis and study to the Initial Design Report.; Final
 design Report (1) Design channels, culverts, and other
 drainage. structures within the project area. (2) Locate and
 roadway collection system for onsite and upstream
 (3) Refine the drainage system concepts and prepare the
 Final Drainage Report.
